

When we imagine the world as God intends for it to be, it is a picture of unfathomable love manifesting as beauty, goodness and grace. In Australia, we believe it's a picture of our nation listening deeply to Aboriginal and Torres Strait Islander peoples and the truth of our shared history. A picture where pursuing true reconciliation brings an end to injustices, and the oldest continuing cultures in the world are celebrated as a blessing to us all.

We invite you to come on the journey with us as we listen deeply to the words and sentiments of Aboriginal and Torres Strait Islander peoples, and act together for justice.
